Locust Road Construction Wilmette Avenue to Lake Avenue

DATE: AUGUST 2, 2019

East Side of Locust Road Concrete and Asphalt Construction Notice

Concrete construction will begin on the **east side** of Locust Road Saturday, August 3; work will start with removing existing sidewalk as needed. *This work will prevent use of driveways on the east side of the street; we kindly ask you use the nearest cross street for your parking needs.* We will provide temporary access to your driveway by the end of the day Saturday, August 3.

Concrete construction will continue Monday, August 5 with sidewalk removal and excavation. On Tuesday, sidewalks will be framed and aggregate base will be placed; Wednesday and Thursday, sidewalks will be poured; Friday and Saturday, curbs will be poured. *This work will prevent use of driveways on the east side of the street; please use the nearest cross street for your parking needs.*

While the curbs cure and gain strength, we plan to fine grade the east half of the roadway for asphalt; this operation will occur Monday, August 12 through Wednesday, August 14; asphalt binder will be placed Thursday, August 15 through Saturday, August 17. *This work will prevent use of driveways on the east side of the street; please use the nearest cross street for your parking needs.* We plan to reopen your driveway at the end of the day Saturday, August 17.

Please note the project schedule is weather permitting.

All driveway apron construction will be done after installation of the new street lighting conduits is complete. You will receive notice when this work will be done.

We regret any inconveniences that may occur during construction. Your patience and cooperation are greatly appreciated throughout this process.

If you have any questions about the work near your home or the overall project, please do not hesitate to contact the project team via locustroadconstruction.com or the Resident Engineer, Darren Frawley, P.E. at 630-660-6180 or dfrawley@bla-inc.com.
